LATE FROM OREGON .- The Steamship Crescent City brings files of papers from Oregon city to the 21st of February last. There were some thirty vessels in the Columbia and Willametto rivers, all ecuting a favorable trade, and arrangements were being made to run a steamer regularly between San Francisco and Ore-gon city.

It is stated that Rev. William Roberts had received authorty to establish Post routes throughout the territory.

About 100 troops had deserted from the U. States Army in Oregon, and Governor Lane had issued a proclamation on the

oubject.
The Alta California furnishes the following items of news:

OREGON .- The sun is getting above our horizion, and the day brightens. It will be seen that arrangements are being made to run a steamer regularly between this place and San Francisco; and also for the establishment of the post office system in this territory. According to the tenor of our private advices from the States, we may surely anticipate a very large immigration the next season.—Our resources begin to command more attention in the State, and their enduring qualities secure the confidence of capitalists. It requires no prophetic spirit to enable us to predict the rapid dvancement of Oregon in wealth and in population.

A writer in the London News proposes that a women should be made the laureate, and mentions Mary Howitt, Mrs. Browning, and Caroline Norton, as worthy of the wreath.

The Paris papers make mention of black rima donna, a Madame Martinez, of Havanna who creates considerable sensation in the musical circles. She has been the first chambersinger to the Queen of Spain. The Duke of Wellington had a service of

plate presented him by the Portuguese govnment, which is worth half a million of Many of English papers commenting upon the affairs of Greece insists that Lord Pal-

blow to French and Russian influence in A-A Bishop for Lower Canada is now talked of, the seat of prelate to be Montreal, and the incumbent, the Rev. Isaac Hellmuth, an

merston's sole object has been to give a side

eminent Hebrew sholar. An Episcopal church has been built and consecrated at Shanghai, China, Mr. Apeleton, of Boston contributed \$5,000 towards

the structure. NEW Coins .- Mr. Dickinson's bill providing for the issue of new coins, having been referred to the Finance Committee of the Senate, Mr. W. E. Dubois of the Philsdelphia mint, has prepared models of the

proposed coins, which are thus described. The three-cent piece, which is three-fourths silver and one-fourth copper, is little smaller in circumference than a half-dime and about two-thirds the thickness. On the face is a Phrygian cap, surrounded by rays, with the word "Liberty" upon it, and "1850" underneath; on the obverse the number "III," circled by a sprig of folinge, outside of which are the words "United States of America." The new cent is about the size of a dime, with a large hole in the centre, ostensibly to give it greater circumference, though this feature will be very convenient, by distingushing it, in the pocket, from all small silver pices. On one side it has merely "Cent," and "1850;" on the other "U S A." and "One-tenth Silver .'edges of both coins are not milled. The cent is of a light reddish-gray color, and not more than one-eighth the weight of the copper cent .- N. Y. Post.

All the "Invaders" to be Arrested. A dispatch from Washington, on Monday, snys :

"At an informal Cabinet meeting, lust night, an animated discussion occurred about the Cuban affair.

"Orders were dispatched to arrest all persons connected with the expedition, as soon as they land upon any part of United

"Orders have been transmitted to the U. S. District attorneys at Mobile and New Orleans to put the law of 1818 in force against Gen. Lopez, should he make his appearance in those cities."

#### From the Plains. Sr. Louis, June 3.

Recent advices from Council Bluffs state that the California emigrants at St. Joseph, Kaneville, and other points, had with few exceptions left for the Plains. The first Mormon train, consisting of 100 wagans and 600 to 800 persons would leave for Salt Lake onthe 1st inst. Alarming reports relative to cholera and

Small pox, daily reached the frontier towns. These reports were mostly brought in by emigrants who had become discouraged and were returning and were not generally

It was reported that Sullivan's company had, with the exception of three, fallen victims to cholera.

Grass and water were quite abundant. There was a tremendous storm at Kanesville on the 27th which unroofed many houses-No lives lost.

### The Wheeling Bridge WASHINGTON; Thursday May 30.

The supreme Court has issued an order directing Chancellor Walworth of New-York to take new testimony as to whether the Wheeling Bridge impedes navigation so as to constitute a nuisance.

New Corss .- The United States Mint at Philadelphia have issued specimens of the new three cent piece, composed of threefourthe silver and one copper; also the new cent containing a small proportion of silver The cent weighs 25 grains, and has a circular hole in the centre. The Spanish coins now in circulation will be received at the intat their current value in exchange for the new coins, so as to induce a rapid and general recoinage.

The Robbers arrested .--- Money recov-

Cuba w. Ireland. antes neutrality laws Index the Use of the neutrality laws 1818, as explained by Judge Betts, in New ok, the Herald says that the Grand Jury of perfect right to send for the whole the light Breatory, and to demand of the what he was of the money \$25,000 calculated and year to help the high revolu-

Time Enough Yet! Speaking of the Scioto & Hocking Valley

Railroad, the Piketon Journal says:-"The determination of Ross county not to assist in building this road must inevitably put a veto upon its construction."
We beg to assure our friend of the Journal that Ross county has not as yet, come to the "determination" spoken of, nor do we belive she ever will. In other words, we have every confidence that, at the Fall

election, she will vo e the subscription. It is well known that if Concord township had done for the S, & H. V. Rond as she might, (half as well as Buckskin did, which is farther off from the proposed line, and less interested in proportion) the question would have carried at the late election. We have seen and conversed with influential gentlemen from Concord, and are satisfied, from their representations that the failure was, (as we conjectured and snid,) the result of "a misunderstanding," and not of a feeling of enmity towards the work. They assure us that it is their intention to vote for that road in the Fall; when, we are certain, Buckskin, Scioto and the other townships that favored it before, will go for it as strong as ever. Exclamations of impatience, by the friends of the work, in consequence of the late result, are natural and to be expected;--but our confidence in the final success of the measure, is as firm as is our belief that the Scioto & Hocking Valley Railroad stock, with the work extending from Chillicothe to Portsmouth, through the mineral region of Jackson, will be first rate. - Chil. Daily Gaz.

EXPENSES OF CALIFORNIA GOVERNMENT .-California State Comptroller has made a report to the Legislature, showing that the expenses of the government of California, up to the 15th of April, were \$255,-934,92. The estimated expenses for the remainder of the year are \$227,98913-making a total of \$42,924 05 to the close of the year

LATER FROM RIO JANERIO. - From Ten to Twelve Thousand Deaths by Yellow Fever .-By the arrival of the brig Sylvania, at Boston from Penambuco, we have dates from Rio

Janeiro to the 5th April. Previous to the Sylvania from Pernambuco a Brazilian steamer had arrived from Rio Janeiro, which reported that the fever was still raging with great violence, and that from ten to twelve thousand people

had died of it at that place slready.

Many commercial houses had been closed in consequence of the sickness, and business generally was very dull.

The New York correspondent of the Philadelphia Inquirer, writing on Monday evening says : "From what I can learn there is some reason to doubt that the expedition is at an end. It is even doubtful whether Lopez is at Savannah, or gone to Mobile. It is quite possible that there has been a ruse on the part of Gonzales, who resembles him, in order to turn the attention of the Spanish authorities from his real position. On the other hand, even this may be a ruse to check any attempt to arrest him, While in suspense, we may be assured that there are several thousand men somewhere, and ready to follow in the course of those who command them."

THE NARROW ESCAPE OF GEN. LOPEZ .-The Savannah Morning News, says that the Pizarro got aground, or she would have undoubtedly captured the Creole .- As it was, she reached the wharf a few moments after the Creole.-The Spanish officers offered a reward of \$150,000 for the delivery of Gen . Lopez, and held a consulation in reference to the propriety of boarding the Creole in the harbor of Key West. She also threw up her ports and prepared to fire into her, but was prevented by one of our national vessels, which placed herself in line with the Creole and hoisted the American colors.

The Creole was seized by the officers of the United States government on her arrival at Key West, and Gen. Lopez, after giving to the officers and men of his party all the money in his possession, took passage with his staff and several of the American officers in the Isabel.

The board of Public Works made the folowing appointments, May 28, 1850 : Resident Engineers .- Henry H. Dodge, Northern Division, Ohio Canal, in place of E, C. Cook.

Samuel G. Foster, Middle Division Ohio Canal, in place of Samuel Carpenter. Wm. McAboy, Southern Division Canal, in place of John Waddle, resigned. Collectors .-- Wm. Ewing, at Carroll, on Ohio and Hocking Canals, in place of O. P. Tong resigned. Inspector .- John Glover, Portsmouth, O.

THE FLORIDA INDIANS,-The latest news from the Indians of Florida, received at Savannah, that General Twiggs has recently had an interview with Billy Bowlegs, who told him positively that he would not remove, and that if it was not satisfactory to the whites, the Indians would go into the swamps, where the whites might come and

fetch them if they pleased. The number of warriors is estimated by General Twiggs at ninety-seven, although others estimate the number much greater. A new delegation of Arkansas Indians have gone down in the nation, but there are no hopes of inducing Bowlegs to emi-

in South Carolina no man can hold a seat in the House of Representatives unless he holds a freehold of five hundred acres of land and ten negroes,

TRICKS OF QUACKS.

Lay Evrayaony Read this Causfully.—There is a Sarasparila for sale in the different towas called S. P. Townsend's Sarasparila. It is advertised as the ORIGINAL. GENUINE, and all teat. This Townsend isso document to the control of the control

Old Dr. Jacob Townsend, THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 10 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUNE ORIGINAL "TOWNSEND SARSAPARILLA." Being paor, he was compelled to limit its manusacture, by which means it has been kept out of market, and the sales circumseribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its weather?

HEALING POWER.

HEALING POWER.

This GRAND AND UNEQUALLED PREPARATION is manufactured on the largest acaie, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for the better; because it is prepared on scientific principles by a sriestific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requestion in the manufacture of the Old Dr's Saraparilla. The Saraparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are ineri or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of. Sarasparilla are so volatile that they entirely evaporate and are lost in the propertiation, if they are not preserved by a scientife process, known only to those experienced in its manufacture. Moreover, these rodulite principles, which if yell in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew it, "root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; they can then strain this insipid or vapid liquid, sweeten with eour molasses and then call it "SARSAPARILLA EXTRACT or SYRUP" But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared that all the inert properties of the Sarsaparilla root are first removed, everything capable of becoming acid or fermentation is extracted and rejected, then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of loaing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the Curre of Innumerable Diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER-COMPLAINT, and in RHEUMATISM, SCROFULA, PILES, COSTIVENESS, all OUTANE, OUS ERUPTIONS, PIMPLES, BLOTCHES and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy is all complaints are ing from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head-palpitation of the heart, cold feet and hands, cold chils and hot flashes over the body. It has not its equal in Colds and for the cold of the body of the heart of the cold of the spiration, relaxing strictures of the lungs, throat and every epiration, relaxing enrictures of the basis of the part

But in nothing is its excellence more manifeetly seen and
acknowledged than in all kinds and stages of
FEMALE COMPLAINTS.

FEMALE COMPLAINTS.

It works wonders in cases of Fluor Albus or Whites, Pulling of the Womb, Obstructed, Suppressed, or Painful Menser, Progularity of the mensural periods, and the like-and is effectual in curing all the forms of Kidney Diseases. By removing obstructions, and regulating the general ystem, it gives tone and strength to the whole body, and system, it gives tone and thus cores all forms of thus cores all forms of the Nervous Diseases and Debility.

Nervous Diseases a great variety of other than the control of the control of

Nervous Diseases and Deblitty, and thus prevente or reliever a great variety of other maladies, as Spirad irritotion, Neurolgia, St. Vitus' Dance, Smooning, Epiteptic Fits, Convulsions, &c.
It cleanest the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constrpation, aliays inflammation, purifies the skin, equalizes the circulation of the blood, producing centle warmth constity all over the body, and the meenstile perspiration; relaxes structures and tigatices, removes all obstructions, and invigorates the entire nervous system. Is not this then

restem. Is not this then

The Medicine you pre-eminently need?
But can any of these things be said of S. P. Townsend's
inferior article? This young man's book is not to be

COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPA-BLE of DETERIORATION, and

because of one GRAND PACT, that the one is INCAPABLE of DETERIORATION, and
NEVER SPOILS,
while the other DOES: souring, fermenting, and blowing
the battles containing it into fragments; the sour, acid
liquid exploding, and damaging other goods! Must not this
horrible compound be poisonous to the system !— IFrat!
put acid into a system sirectly diseased with acid? What
causes Byspepsia but acid? Do we not all know that when
food sours in our stomachs, what mischlef it, produces !—
fatulence, heartburn, palpitation of the heart, liver complaint, diarrhea, dysentery, colid, and corruption of the
blond? What is Scrotule but an acid lumor in the body!
What produces all the humors which bring on Eruptions of
the Skin, Scald Head, Sait Rheum, Erysipelas, White
Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance,
which sours, and thus spoils all the fluids of the body, more
or less. What causes Rheumatism but a sour and acid
find which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate issues apon
which it acts? So of nervous diseases, of impurity of the
blood, of deranged circulation, and nearly all the ailments
which afflict human nature.

Now is it not horrible to make and sell, and infinitely
werse to use this
SOURING, FERMENTING, ACID "COMPOUND" OF

which afflict human nature.

Now is it not horrible to make and sell, and infinitely werse to use this

SOURING, FERMENTING. ACID "COMPOUND" OF

S. P. TOWNSEND.

and yet he would fain have it understood that Old Dr. Jacob Townsend's Genume Original Surseparilla, is an IMITATION of his inferior preparation !!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article!

We wish it understood, because it is the absente traith, that S. P. Townsend's article and old Dr. Jacob Townsend's Sarsaparilla are kencen-teide opert, and infinitely dissimular; that they are unlike in every particular, having not acce single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific unprofessional man, what gestrantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are magnable of changes which might render than the AGENTS of Disease instead of health?

But what else should be expected from one who knows softing comparatively of medicine or disease? It requires a person of some experience to cook and even up even a common decent meal. How much more important is it that the persons who manufacture medicine desirance for WEAK STOMACHS AND ENFERBLED SYSTEMS, should know well the medical properties of plants, the best

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to

hase diseases!

It is to atrest frauds upon the unfortunate, to pour bairs
to wounded humanity, to kindle hope in the despairing
bosom, to restore health, and bloom, and vigor time the
crushed and broken, and to banks infirmity that OLD DR
JACOB TOWNSEND has SOUGHT and FOUND the oportunity and means to bring his Grand Universal Concentrated Remedy within the reach, and to the knowledge of all who need that they may learn and know, by joyful experience, its Transcendant Power to Heat.

## MEMPHIS INSTITUTE. Medical Department.

THE regular course of Lectures in this frtitute will commence on the First of November, and continue until the last of February. The Anatomical Department will be opened and ready to receive students by the 1st of Oc-

the direction of the following PROFESSORS. Z. FREEMAN, M D Professor of Anatomy, R S Newton, M D Professor of Surgery. H J Hucke, M D Professor of Theory and

Practice of Medicine.
W Byan Powerl, M'D Professor of Physiology, Pathology, Mineralogy and Geology, J King, M D Professor of Materia Medica, Therapeutics and Medical Jurisprudence, J MILTON ANDRES, A M M D Professor of

Chemistry and Pharmacy,
JA Wilson, M D Professor of Obstetrics and Diseases of Women and Children. CLINIQUE LECTURES:

Surgical-Prof R Newton. Z Freeman, M D Anatomical Demonstrator. The fees for a full course of Lectures amount to \$105. Each Professor's Ticket \$15. Matriculator's, \$5.-Demonstrator's Fee. \$10. Graduation, \$20

Those desiring further information will please address their letters (post paid) to the Dean; and students arriving in the city will please call on him at the Commercial Hotel.

R. S. NEWTON, M. D., Dean of the Faculty,

Law Department. Hon. E W M King, Professor of Theory and Practice of Law. JOHN DELAPIELD, Esq., Professor of Commer cial Jurisprudence.
Terms—\$50 per session. All communica-

tions pertaining to this department must be addressed to E. W. M. KING, Esq. Memphis, Tenn., March, 1850. The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distin-

guished in our country .- The Medical Faculty constitutes an anomaly in this or any other country- all of them are able lecturers and the best of teachers.

Those who will contemplate our geographi-

cal position and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has more.

A common error exists in the minds of many students relative to the place of studying med-

icine: those who intend practicing among the diseases of the west and south should certainly educate themselves at a school whose Faculty are practically acquainted with these diseases 'I hat the public may be satisfied of the per-manency of this school, we feel it our duty to state, that the Trustees and Faculty form a var in action, which augurs well for its fu-ture success, and that the peculiar internal or-ganization which connects them, cannot be in-terrupted.

President of the Memphis Institute.

April 1, 1850.—524f.

ON SECOND STREET, BETWEEN MARKET AND COURT, One square from the Steamboat Landing, Portsmouth, O. The subscriber respectfully informs her friends and the public generally, that she will continue in the above named, well known

House of Entertainment heretofore kept by her late husband, Thomas Coney, where she will be happy to wait upon all who may favor her with their patronage. The house was not long since enlarged and furnished in a style to make every guest comfortable, The table will at all times be well surplied with the best that the markets afford; and the bedding

will be clean and neat.

A commodious Stable, Carriage house and Wagon yard adjoins the house, in charge of a careful Hostler, where single horses or teams will be well attended and supplied with an abundance of the best Hay and Grain. In short, the subscriber intends that her house shall be a comfortable home for her guests. The charges as heretofore will be reasonable.

The Coaches for the North and East pass the house daily, morning and evening.

ANN CONEY.

Portsmouth. October 23, 1849.—29y1.

espatch, and upon the most reasons.

is published every Tuesday morning.

tions, etc., etc. This medicine has long been sought for. It has been said that Rheumatsm could not be cured; but there is a remedy designed by pature for the cure of every disease that the human system is subject to. At last a remedy has been found that cures Rheumatism of the worst ferm-one of the most valuable vegetable productions of the earth—the greatest and most important discovery of the age, and a wonderful blessing to the human family. It cares without sixtyling and delivery of the second sixtyling and the second sixtyling and the second sixtyling and the second sec out sickening or debilitating, and renews strength and rigor to the whole system. It has cured, during the past three months, over 500 cases that were considered incurable.

Certificates of the curative properties of this medicine can be seen by calling on the Acaste.

the Board. Office open every day, Sundays ex-cepted, from 8 o'clock a. m, to 6 o'clock r. m. By order. JAMES LODWICK, Sec'y. Portsmouth, Ohio, June 20, 1848.

Nothing Extraordinary.
One amongst hundreds of the same sort, Dr. Howe-Dear Sir: Allow me to say a few words in reference to your preparation shaker Sarseparilla. I have for the last two years been afflicted with sore eyes. I had tried every preparation of the so-called Sarsaparilla, without the least effect whatever, until I was advised by a friend to try Dr. Howes' preparation. He said he had examined your recipe and knew for a certainty that you used the Honduras Sarsaparilla. Having confidence in my friend, I thought I would try it. I have used in all, at this time three bottles, and you would in all, at this time three bettles, and you would be astonished at the sight. My eyes are near ly well; my whole system invigorated, and in fact I feel like another man. So great is the heatistion change for the better, that I have no hesitation in saying that I most cheerfully would recom-

mend your Shaker Sarsaparilla as above all others. If you think proper to publish this, you can do so, for I am willing to satisfy any person of the truth of the above-HAMILTON POTTER. The above is one amongst hundreds we can show our friends, if they will take the trouble to call on us at No I College Hall. It is also war ranted to be far superior, for FEMALE COM-PLAINTS to any other preparation of the kind now before the public. It is also a sure remedy for all diseases arising from an impure state of the blood.

Price \$1 per bottle or 6 bottles for \$5. Principal Depot, No 1 College Hall, Walnut st., Cincinnati, Ohio. HOWE & CO., Proprietors, HOWE & CO., Proprietors,
